The consolidated interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the consolidated entity as at and for the year ended 30 June 2009.

The consolidated interim financial report was approved by the Board of Directors on 16th February 2009.

The consolidated entity is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with the Class Order, amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

3. Significant accounting policies

As revised AASB 3 applies prospectively, there is no impact on prior periods.

Revised AASB 101: Presentation of Financial Statements (2007) and consequential amendments in AASB 2009-6:Amendments to Australian Accounting Standards. A separate Consolidated interim statement of comprehensive income has been presented in the Consolidated Interim Financial Report as a result of the adoption of this standard. The statement presented changes in equity during a period other than those changes resulting from transactions with owners.

4. Estimates

The preparation of the interim financial report requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this consolidated interim financial report, the significant judgements made by management in applying the consolidated entity's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated annual financial report as at and for the year ended 30 June 2009. Refer to Note 7 for additional information in relation to investments in equity accounted investees.

5. Segment reporting

Segment information

Identification of reportable segments

Segment information is presented in respect of the consolidated entity's operating segments. The consolidated entity has identified its operating segments based on the internal reports that are reviewed and used by the Chief Executive Officer and the management team (the chief operating decision makers) in assessing performance and in determining allocation of resources.

The operating segments are defined by management based on the manner in which the services are provided. Financial information about each of the operating business segments is reported to the Chief Executive Officer and the management team on a monthly basis. Each operating segment is a reportable segment, and these are the sources of the consolidated entity's major risks and returns.

- Specialised Communications public affairs, public relations, corporate communications, design and event management

The 31 December 2008 comparative amounts have been restated to reflect the current business segment presentation.

In relation to segment reporting the following definitions apply to operating segments:

EBITDA – earnings before interest, taxes, depreciation, amortisation and before impairment adjustments. EBIT – earnings before interest, taxes and before impairment adjustments.

In the current interim period, following entities were acquired:

On 7 December 2009, the Company acquired a controlling interest in Dark Blue Sea Limited, as a result of acceptances under the takeover offer which commenced on 1 October 2009. After gaining acceptances in excess of 90% of the share capital, the Company compulsory acquired the remaining share capital in Dark Blue Sea Limited and therefore owns 100% of the share capital post the compulsory acquisition period. Prior to the takeover bid, the Company had a 29.79% interest in Dark Blue Sea Limited. The purchase price for the remaining 70.21% interest in Dark Blue Sea acquired in the half year ended 31 December 2009 was \$19,745,633, of which \$737,087 was paid during the period and \$19,008,546 was paid in January 2010.

From 7 December 2009, as a result of acquiring a controlling interest, the equity accounting method no longer applies and Dark Blue Sea forms part of the consolidated financial statements of the consolidated entity.

6. Acquisitions of subsidiaries (continued)

The purchase price of Dark Blue Sea not paid prior to 31 December 2009 is expected to be settled in January 2010 in accordance with the takeover offer.

Fair value adjustments represent identifiable intangible assets net of deferred tax liabilities acquired in connection with the business combination. As at 31 December 2009, the purchase price allocation of Dark Blue Sea has not yet been completed and therefore in accordance with provisional business combination accounting under AASB 3 *Business Combinations*, the entire value of the excess of the purchase consideration over the fair value of the net assets and liabilities acquired has been allocated to goodwill. The Company expects to complete the purchase price allocation within the required provisional business combination timeframe and allocate any intangible assets identified and recognisable under AASB 138 *Intangible Assets*.

6. Acquisitions of subsidiaries (continued)

Effect of acquisitions for the half year ended 31 December 2008

In the prior interim period, there were no individually material or significant acquisitions. The total of all acquisitions had the following effect on the consolidated entity's assets and liabilities:

Acquirees' net assets at the acquisition date

	Recognised	Fair value	Carrying

ended 31 December 2008

Fair value adjustments represent identifiable intangible assets net of deferred tax liabilities acquired in connection with the business combination.

Goodwill has arisen on the acquisition of entities during the year as some intangibles, such as key management and technical employee relationships and certain customer relationships, did not meet the criteria for recognition as an intangible asset at the date of acquisition. Considering the characteristics of marketing and communication service companies, acquisitions do not usually have significant amounts of tangible assets as the principal asset typically acquired is creative talent and know-how of people. As a result, a substantial proportion of the purchase price is allocated to goodwill.

Carrying amount at the end of the period		10,132
